ACKNOWLEDGEMENTS

Many people have contributed to this study. First of all, I would like to express my sincere gratitude and warm appreciation to my doctoral supervisor, Professor Oliver Leaman for his enthusiastic encouragement and patient guidance.

A debt of gratitude is owed to Professor Sonmez Kutlu for his invaluable contribution and constructive suggestions.

I am indebted to the editorial staff at Fecr Publications, particularly my dear former student Tevfik Aksoy, for their assistance in preparing the book for printing.

My heartfelt appreciation goes to Professor Rifat Atay, 'my brother here and Hereafter,' without his persistent help, this book would not have been possible.

In preparing me for the future through education, I am extremely grateful to my parents for their love, supplications and sacrifices they endured. Last but not least, I am very much thankful to my beloved wife Esra Afife and my precious children, Ahmet Talha, Recep Saki and Hayrunnisa Gul, for their affection, understanding, prayers and continuing support to complete this research.
